## Spa News Flash #5 – March. '07

### More about Guinot (while we wait for Spring)

We hope that all the windy white and rainy winter days are over, and we can start enjoying spring that has just arrived!

Most of Spa Space clients use our main skincare line Guinot, but not everyone is familiar with its history and its wonderful ingredients.

It all started in Paris in 1963. The skin care company was born. More than 30 years of dedication to professional Salons and Spas, in more than 65 countries. Guinot is a skincare product that uses state-of-the-art biotechnologies.

Main active ingredients are:

-56 supplement cellular ingredients including 21 amino acids, 17 vitamins and 16 biological active ingredients -A.H.A.

-Vegetal extracts

-Essential oils

-Vitamin C

-Hydroliposomes

-DNA (marine source)

Guinot has personalized solutions for: oily, mature, sensitive and reactive, wrinkle-prone, devitalized, dehydrated skin, depilation, exposure to UV rays, body (cleansing, softening, contouring, firming, toning), and skin problems for men.

Tiredness, stress, passing time or vacation on the hot and sunny beach can contribute to loss of radiance and appearance of "brown spots". The epidermis gets "clogged" with dehydrated cells, cellular renewal slows and the complexion appears dull and congested. We would like to stop here for a minute and talk to you about the newest Guinot facial: **Beaute Neuve**.

The name might sound familiar for some of the Guinot users but the treatment was totally changed.

The new **Beaute Neuve** gives us, estheticians more to work with! The new **double peeling** recreates a radiant, luminous and hydrated skin. It exfoliates dead skin cells which tend to show signs of ageing dehydration and hyperpigmentation.

The new **Beaute Neuve** is done in 4 stages:

1. the solution of fruit acids (citric acid, malic acid, tartaric and glycolic acid) is applied on a face to separate the dead skin cells from the living cells in order to prepare the skin for exfoliation.
2. the neutralizing foam is apply . The foam absorbs, traps and eliminates dead skin cells as well as neutralizes the fruit acids. The skin regains its natural healthy PH.
3. now it is the time for the most pleasant and relaxing part – a facial massage. But what is really happening is in-depth cellular regeneration. The massage serum enriched in 56 cellular nourishing ingredients is applied. It is a cocktail of plants amino acids, vitamins and minerals. And it smells so good!!!!!!
4. clarimask is applied. It boosts the skin's radiant glow and lightens pigmentation spots due to active vitamin C that limits production of melanin within the cells and offers powerful skin lightening action. Vitamin C stimulates the synthesis of collagen and elastin as well as regenerates elastic fibres.

The Double Peeling treatment offers in-depth action, using active ingredients without parabens!!!!!!

### OPI Polish Is Here!

The news for the pedicure lovers – the new Australian collection of OPI polish is here!!!!!! We introduced it to our spa recently, and as expected – many of our clients expressed hope to see it available permanently. Therefore, it is officially our new, permanent line. Thank you for your input!

"The Australian collection, much like the land which inspires it, is filled with colors that bring the season's beauty and fashion trends to life. Undefined by any one single look, these shades are a remarkable blend of free-spirited beauty at its best!"

(The OPI magazine)

### Stay Tuned...

Subscribing to our news on-line, you will be the first to know about our special promotions and offers, our new staff, and much more. [www.spaspacevictoria.com](http://www.spaspacevictoria.com) If you received this newsletter from a friend, visit our Web site and subscribe on-line to get your own copy and don't miss on valuable offers!

And, perhaps share your newsletter copy with friends. They will surely thank you for that. And – we will also do thank you! In fact, when your friend books an appointment and tells us that you recommended our services – we will promptly add one bonus point for each referral to your account (call for details), to say – thank you for your recommendation. Now, that's a real added value!

We hope to see you soon, and please always remember – if you are not sure what's best for you – we offer FREE skin consultation. So, book on-line, or call us now!

## Spring Draw

Yes! Once again, you can win a valuable package at the Spa Space!

Simply visit us and put your name into the draw basket. This free package makes a perfect addition to your Spring skin care:

Body Contouring System by European company Wilma Schumann is perfect for spring time, just before we put our shorts and bikinis on. After long dark and cold months of winter the time for a revolutionary system that effectively treats dimpled and uneven contours of the skin called **cellulite** has come.

The system combines technologies from different disciplines such as medical, biochemical and biomechanical and combines them into a system that offers truly measurable results.

The package contains:

1. seaweed soap; designed to exfoliate the dead cell layer, revitalize dry rough skin and help to increase circulation.

2. body moisturizer; restores the lipid balance and prevents unnecessary loss of water .

3. lipolysis emulsion; contains the active CoAXEL and other nutrients that support the breakdown of the fatty acids and the transport of lipids.

4. contouring tool; a massage implement that aids in the penetration of the active ingredients

5. contour measure tape

6. contouring chart

Retail value \$130.00

Come in and put your name into the draw basket. It starts on the first day of Spring and the draw will be held on 11th of April. Thanks to this newsletter, you are the first to know about this exciting draw! Thank you for your interest!

Thank you, and see you again soon!

- Grazyyna, Rhonda, Debbie, and Chris
